

Infrastructure

Case Study 1

Overview

Engineering, Procurement & Construction (EPC) in India has been one of the fastest developing businesses in India due to Government's focus on the infrastructure sector and increase in public private partnerships in India. However, our client was facing acute problems in three main areas – Human resources planning, Standard operating procedures & invoicing to government. Our client intended to create forms and establish an organization structure in a way that the overall flow of processes is streamlined and the billing to government is precisely done with proper documentation in place.

Key project objectives

- ➔ Develop organization structure.
- ➔ Develop human resource policy.
- ➔ Develop standard operating procedure for each designation.
- ➔ Establish reporting standards across enterprise.
- ➔ Recruitment strategy.
- ➔ Training the personnel on the new organization structure & systems

Bizminder's solution

- ➔ Developing and implementing a robust organization structure.
- ➔ Establishing departments in the company to handle activities separately.
- ➔ Reshuffling existing staff into new roles and training.
- ➔ Developing standard operating procedures across all departments.
- ➔ Developing formats in a way that field information is compiled effectively to raise running bills to government with precise documentation so that the bills are cleared in time lowering working capital pressures.

Infrastructure

Case study 2

Infrastructure is one of the fast growing sectors in India and the demand of well managed infrastructure stands inevitable to growing businesses. One of our clients intended to develop industrial park and intended to stress test the entire plan based on technical & financial parameters.

Key project objectives –

- ➔ Creating business plan.
- ➔ Techno-commercial evaluation of project.
- ➔ Legal & taxation insight.

Bizminder's solution

- ➔ Financial modelling of the entire plan.
- ➔ Technical review of implementing the plan.
- ➔ Benchmarking with business models of exiting industrial parks.
- ➔ Complete business modelling.
- ➔ Creating investor friendly business plan.
- ➔ Complete insight report on taxation & legal provision applicable to sector.
