

Manufacturing

Case study 1

One of the most prominent businesses under infrastructure is use of green building material as an alternative in construction. This businesses are new in India and require heavy investment. One of our client was planning for one of such green building material manufacturing, which required a huge investment. Our client intended to technically & commercially evaluate the proposal to take investment decision.

Key project objectives

- ➔ Preparing investment analysis report.
- ➔ Capital budgeting decision.
- ➔ Preparing business plan & detailed project report.

Bizminder's solution

- ➔ Preparation of investment analysis report taking into consideration sensitivity analysis, product benchmarking, competition study, market research and financial analysis, in a way that promoters take an informed decision.
- ➔ Preparing capital budgeting reports for alternative machinery analysis.
- ➔ Preparing detailed project report to be presented to investors/financial institutions.

Manufacturing

Case Study 2

Plastic industries is highly competitive and has multiple product models under one roof. This makes it very difficult for the company to take right product mix decisions and also manage financial performance optimally. Our client wanted us to prepare financial projections in a way that they can be used like used like budgets and also identify process gaps to streamline entire business operations.

Key project on objectives –

- ➔ Working on financial budgets.
- ➔ Preparing a report on product mix decisions.
- ➔ Assessment of entire businesses processes and devise a decision matrix to identify non value adding processes that can be reduced.

Bizminder's solution

- ➔ Preparing product cost analysis sheets to identify product specific profitability.
- ➔ Report on key product mix.
- ➔ Preparing financial budgets by setting performance targets for next 5 years.
- ➔ Identifying flow of operations and breaking them into activities thereby helping client to identify repetitive and non-value adding processes. This led to reduction in cost.
